- Designed and implemented a dynamic E-Commerce webshop leveraging Node.js, Angular, Tailwind, etc.
- Successfully integrated seamless cart functionality, providing users with an intuitive shopping experience.
- Incorporated secure payment processing through Stripe, ensuring a streamlined and trustworthy transaction process.

Image Encryptor  [Github](#)
- Implemented a Java application utilizing AES, DES, and RSA encryption algorithms for secure image transformation.
- Demonstrated expertise in cryptographic concepts, algorithm implementation, and GUI development.
- Emphasized data security and encryption technologies.

Snake Game  [Github](#)
- Developed an engaging Snake game using Java and Swing, showcasing proficiency in object-oriented programming and graphical user interface design.

EXTRACURRICULAR

Research Paper: Physical Activity and its correlation with lifestyle. (November '22 - January '23)
We conducted a survey to find out what percentage of people regularly engage in physical activities and if they don't why? We also tried to figure out whether physical activities positively affect lifestyle and if yes? How?

Formal Anchor @ Malhar'23, SVIT-Vasad (March 2023)

Kabaddi Interzonal(District) level Kabaddi player
